The ridiculously corrupt media has done more damage to our democracy than anything Trump (or really any other politician) could ever do.

The media was supposed to be OUR way of checking the government.

Instead, they became lapdogs for the left and Democrats.

IF asked, Mark Cuban would work in Trump admin.🤔

Isn't this similar to when a guilty person Emerses themselves into an investigation of a crime they did? Afterall, It's widely known that Trump will release the Diddy & Epstein list.

I have cried a dozen times trying to post this video, deleting it, and trying again.

This is the park where my kids played.

The restaurant where I fell in love.

An art studio of a dear friend.

It's a video of Asheville to you, but it's home to me.

Please don't forget us.

If you are an everyday person trying to survive, the last thing you should do is vote for the candidate that the corrupt uniparty cult and their controlled media are trying to prop up.

You need to vote for the guy that the corrupt uniparty cult is trying to stop.
